Bottom Loading Water Dispenser with Self-Cleaning

Model # 601118

FEATURES & FUNCTIONS

Dishwasher Safe Pad – Protects finishing, provides a slip resistant surface and easy cleaning.

Controls and Function Lights
• Empty Bottle Indicator (E) – Blinking orange when water bottle is empty.
• Hot Button (Wavy Lines) – Outside circle blinks red to indicate dispense water is heating water. Please to unlock. The outside circle will be red indicating you have up to 3 seconds to press large silver button to dispense hot water.
• Cold Button (Snowflake Icon) – Outside circle blinks blue to indicate dispense water is cold. Please to unlock. The outside circle will be blue indicating you have up to 3 seconds to press large silver button to dispense cold water.
• Drip Control (Sliver) – Dispense to dispense hot and cold once cold and hot controls are unlocked. Release to stop dispensing.
• Self Cleaning Indicator (SCD) – Flash at 90% to indicate the self-cleaning cycle is operating. Note: Water cannot be dispensed when flashing.
• Spout – Hot and cold water come out here.
• Bottle Support – Helps align sports bottles and glasses to eliminate spills.

LED Nightlight – Located behind bottle support. Helps in low light situations.

Probe Assembly – Located inside cabinet. Connects to bottle to allow water to be pumped into hot and cold tanks.

Probe Hanger – Located inside door at top. Rest probe assembly here to keep it clean when changing bottles.

WARNING

To reduce the risk of injury and property damage, user must READ THIS MANUAL before assembling, installing & operating dispenser.

WARRANTIES & SAFETY PRECAUTIONS

To reduce risk of injury and property damage, user must read this entire guide before assembling, installing & operating dispenser.

Failure to execute the instructions in this manual can cause personal injury or property damage.

Models that heat water dispense at very high temperatures. Failure to use properly can cause personal injury.

When operating this dispenser, always exercise basic safety precautions, including:

• Prior to use, this dispenser must be properly assembled and installed in accordance with this manual.
• This dispenser is intended for water dispensing only. Do NOT use other liquids. Do NOT use for other purposes. Never use any other liquid in the dispensing system. This system is intended for safely bottled water.
• For indoor use only. Water dispenser in a dry place away from direct sunlight. Do NOT use outdoors.
• Install and use only on a hard, flat and level surface.
• Do NOT place dispenser into an enclosed space or cabinet.
• Do NOT operate dispenser in the presence of explosive fumes.
• Position back of dispenser no closer than 4 inches from wall and permit free airflow between wall and dispenser. There must be at least 4 inches clearance on the sides of the dispenser to permit airflow. The unit cannot be intended to be plugged into a ground fault interrupting receptacle.
• Do NOT use as an extension cord with your water dispenser.
• Always unplug and pull straight out from outlet. Never unplug by pulling on power cord.
• Do NOT use dispenser if cord becomes frayed or otherwise damaged.
• Do NOT connect electrical probes, do NOT use immersion cord, plug, or any other part of dispenser in water or other liquids.
• Ensure unplug is unplugged prior to cleaning.
• Never allow children to dispense hot water without proper and direct supervision. Unplug and permit unsupervised use by children.
• Do NOT heat water if water bottle is empty.
• Service should be performed by only a certified technician. Please contact us at 866-429-7566 for assistance.

CAUTION: This unit dispenses water at temperatures that can cause severe burns. Avoid direct contact with hot water. Keep children and pets away from unit while dispensing. Never allow children to dispense hot water without proper and direct supervision. Unplug unit to prevent unsupervised use by children.

After setup, hot water will be available in 15-20 minutes.
1. Position bottle, glass, or pitcher onto pot spout below.
2. Press and hold the hot water control (wavy lines). You have 3 seconds to press the silver control to begin dispensing.
3. Release silver dispensing control once desired fill level is achieved.

Dispensing Hot Water (185°-210°F / 85°-98°C)
Tank Capacity: 1L, Flow Rate: 35mL per second / 126L per hour

CAUTION: This unit dispenses water at temperatures that can cause severe burns. Avoid direct contact with hot water. Keep children and pets away from unit while dispensing. Never allow children to dispense hot water without proper and direct supervision. Unplug unit to prevent unsupervised use by children.

For best taste, performance and hygiene:
1. Clean your dispenser, bottles and probe spout and probe hanger with soap and water. Use fresh, clean air to dry all components.

OPERATION

This water dispenser has been tested and sanitized prior to packing and shipping. During transit dust and odors can accumulate in the tank and lines. Dispense and dispose at least one quart of water prior to drinking any water.

Dispensing Cold Water (37°-50°F / 3°-10°C)
Tank Capacity: 3.6L, Flow Rate: 35mL per second / 126L per hour

After setup, it will take 1 hour to get water up to maximum cold temperature. During this time the cold water system will run continuously. This is normal.

1. Position bottle, glass, pitcher or pot below spout.
2. Press to unlock cold water control (snowflake icon). You have 3 seconds to dispense cold water.
3. Release silver dispensing control once desired fill level is achieved.

NOTE: The ice cycle takes 90 minutes to complete. During this time do not dispense and drink the water. Doing so may result in an out of taste. For your convenience, we recommend that you do this during a period when the dispenser will not be in use like overnight or when staff is away from the office. During the cycle you may smell a faint trace of ozone.

CHANGING BOTTLES

A flashing orange function light alerts you when your bottle is empty. Replace the bottle as soon as possible.

CAUTION: Do not dispense hot, cold or cool water if the orange light is flashing as you could empty the tanks and cause the dispenser to overheat.

1. Open dispenser door and slide empty bottle out of cabinet.
2. Remove and discard empty bottle.
3. Place fresh bottle in cabinet.
4. Place fresh bottle into cold water control (wavy lines). There must be at least 4 inches of space between the wall and dispenser.

TROUBLESHOOTING

Cold water is not cold.
• It takes up to one hour after setup to dispense cold water.

Hot water is not hot.
• It takes 15-20 minutes after setup to dispense hot water.

Nightlight isn’t Working
• Make sure the power cord is properly connected to a working outlet. Make sure the back of the dispenser is at least 4 inches from a wall and there is free airflow on all 4 sides of the dispenser.

LIMITED WARRANTY

Primo Water Corporation, (“Vendor”) warrants to the original purchaser of this dispenser, and to no other person, that if this dispenser is assembled and operated in accordance with the printed instructions accompanying it, then for a period of one (1) year from the date of purchase, all parts in such dispenser shall be free from defects in material and workmanship. Vendor may require reasonable proof of your purchase from an authorized retailer or distributor. Therefore, you should retain your sales slip or invoice. The Limited Warranty shall be limited to repair or replacement of parts, which prove defective under normal use and service and which Vendor shall determine in its reasonable discretion upon examination to be defective. Before returning any parts, you should contact Vendor’s Customer Service Department using the contact information listed below. If Vendor confirms, after examination, a defect covered by this Limited Warranty in any returned part, and if Vendor approves claim, Vendor will replace such defective part without charge. If you return defective parts, transportation charges must be pre paid by you. Vendor will return replacement parts to original purchaser, freight or postage prepaid. For units purchased outside of the continental US (limited to Hawaii, Alaska, and Puerto Rico), dispensers determined to be defective by the Vendor should be returned or exchanged at the original point of purchase within the warranty period.

The Limited Warranty does not cover any failures or operating difficulties due to accident, abuse, misuse, alteration, misapplication, improper installation or improper maintenance or service by you or any third parties, or failure to normal and routine maintenance on the dispenser, as set out in the User’s Manual. In addition, the Limited Warranty does not cover damages to the finish, such as scratches, dents, discoloration or rust after purchase.
